

Boulder Ridge Association of Rochester
Storm Doors Requirements

Dear Homeowner

Storm doors are acceptable for the Boulder Ridge community with some requirements. The storm doors need to be white and full glass (which eliminates the kick board). Your doors can be beveled glass and have the safety bar that runs across the door.

Installation of the door is the responsibility of the homeowner. It is also the responsibility of the homeowner to see that the installation is done by professionals or in a professional manner.

Additionally, it is the Homeowners responsibility to maintain the door. Examples of maintenance would be: replace broken glass, door handles and front door frame damage due to installation of the door.

Please note that any damage caused to the property because of the storm door or its installation will be the responsibility of the homeowner.

Please sign this letter if you intend to add or keep a storm door and agree to these terms and conditions. This letter must be on-file with the management company prior to installation and at all times a storm door is installed.
